Risk Insight

THE WORLD IS CHANGING RAPIDLY.
THE RULES HAVE CHANGED.
GREAT IS NO LONGER GOOD ENOUGH.
UNSEEN RISK IS THE NEW OPERATING ENVIRONMENT.

www.blackopspartners.com

Increasing unprecedented economic and geopolitical risk requires creating sustainable advantage or **your company risks becoming obsolete more quickly now than ever.**

Previous management and operating models no longer apply in this rapid-fire, winner-take-all global competitive environment.

Never has rigorous strategic innovation and securing it been more critical. It requires elevated thinking.

SOLUTION

Critical Shift: Unifying risk, strategy, the human element, technology, and security with real-time, factual intelligence is key to survival.

Transformational strategic adaptation: Leverage current crisis while anticipating continuous structural upheaval to survive and thrive. Identify opportunities beyond each crisis with breakthrough clarity. Manage unforeseen risk with strategic readiness enabling you and your teams to react faster than both risks and competitors.

CAPABILITIES

Many leaders and organizations **trust Invictus®** as their adaptive platform for clarity and execution in **leveraging risk and strategy**.

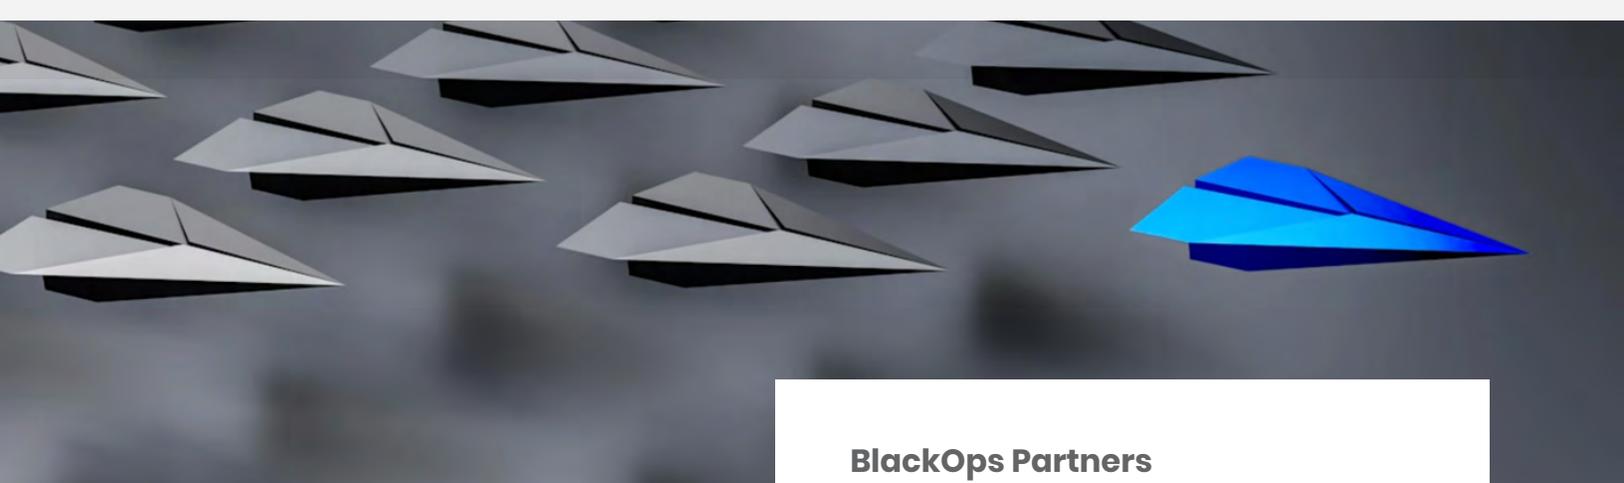

Successfully navigate enterprise, supply chain crises and unseen risk:

- Intelligence-driven, risk and strategy assessments
- Strategic modeling and simulation
- Invictus Gen4: Uplevel Adaptive Risk and Strategy Unification Platform
- Invictus Gen4: Cascade Training and Certification – Leverage risk and strategy-based cultural transformation with clarity, alignment, and performance

Risk & Strategy	:	Adaptive.
Leverage	:	Unification.
Resilience	:	Cascade Training.
Strategic Partner	:	BlackOps.

Invictus Gen4:

- Interactive, forward-looking platform identifies unseen risk, new opportunities, and enables you to 'see around corners and blind spots'
- Strategic assessment and simulation tailored to your unique operating environment
- Risk, strategy, security, culture transformation and alignment for senior leaders, employees, and supply chain
- Identification, qualification, and mitigation of aggregate risk
- Assessment and mitigation of economic, geopolitical, Cyber, China risk, and hybrid warfare risk
- Comprehensive enterprise scope, with targeting capability: M&A, new investment, new products, suppliers, hybrid cloud, digital transformation, and other risk issues

BLACKOPS PARTNERS

Today's global competitive environment is the new, fast-changing warfront. Risk and strategy modeling are no longer a luxury - they are a necessity. Old methods no longer apply. Those who adapt now create the upper hand to not only survive, but thrive. We partner with forward-thinking clients who choose to proactively plan and adapt to risk, align their strategy and employees, and protect their intellectual property at innovative new levels.

BlackOps Partners

Global strategic risk, strategy, and intelligence for **today's challenging environment**

Through strategic risk assessments, tailored risk and strategy modeling, real-time intelligence, cascade training, and breakthrough BlackOps Partners - Invictus Gen4 platform, proactive clients advance against unprecedented risk. The visionary team at BlackOps Partners includes strategy, management consulting, intelligence, military, technology, and security industries who partner with you to prepare your teams to effectively navigate your future.

Clients include global firms in business and academia, government, and military.

Why BlackOps.

Top down, tailored approach: We enable your enterprise teams and supply chain to manage the new frontier of risk. Great is no longer good enough. We must think two steps ahead. BlackOps Partners provides expert leadership and teams who walk with you step by step – armed with real-time intelligence, global visibility, breakthrough tools, an unbiased non-product approach, and zero conflicts of interest. We are committed to you and protecting your future.

This is the new frontier. We must become the change we seek.

Will you be shifting your company's strategic position this year by proactively modeling and leveraging your risk or will you be busy putting out fires and reacting to old methods?
